

KickStart for Educators

Entry-Level Digital Pathology for Education

With the new KickStart for Educators, instructors can create, annotate, and share digital slides on an open, web-based platform. The entry-level software makes it possible for any medical school or educational institution to adopt digital pathology today. KickStart for Educators provides educators like you with better control over your teaching assets. And, KickStart for Educators also includes 50 high-resolution slide scans so you can start taking advantage of digital pathology information immediately, whether or not you have invested in a slide scanner.

Key Benefits

- Eliminate inefficiencies associated with managing glass-slide teaching sets
- Access slide collections from any location, anytime using ImageScope™, our freely downloadable desktop viewing software, or from within any web browser
- Provide unlimited access to rare slide specimens for study
- Add clarity to instruction by annotating regions of interest
- Faster and more focused learning when compared to microscope-based systems
- Distribute annotated digital slides to your students on CD/DVD

Web-Based Viewing

- Share complete, high-resolution digital slide images
- Share remotely stored images
- View digital slides simultaneously
- View over commercially available open-platform web-server

Annotation and Enhancement

- Overlay annotations, including arrows, text, contours, and more
- Link text to specific regions
- Pan and zoom to any region and magnification, while maintaining macro view of entire specimen with the thumbnail feature
- Apply image enhancements for contrast and brightness
- Crop, rotate, label, compress, and export

Digital Slides of the Highest Quality

- Image quality guaranteed
- Simple, fast scanning of glass slides into digital slides, returned via DVD
- Local or remote access to digital slides

ScanScope® GL, a low-cost
scanner for educators!**

KickStart for Educators

Four Easy Steps to KickStart for Educators!

Step 1

Send us your 50 glass slides.

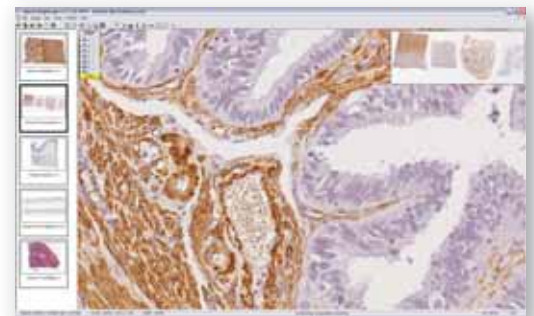

Step 2

We'll convert them to digital slides at 40X with our award-winning ScanScope® scanner and we'll post them on our secure server for 12 months, providing you with a password to protect your files.

Step 4

After installing the software, you are ready to enhance, annotate, and share digital slides with your students.

Step 3

We'll send your glass slides back, along with the digital slides and KickStart Software for Educators on DVD.

You can build onto your KickStart program by adding a ScanScope GL, our new low-cost scanner for educators. For even more robust scanning functionality, you can also upgrade to the ScanScope CS or ScanScope XT.

While Aperio is pursuing regulatory clearance to address the clinical market, Aperio's ScanScope systems have not yet been cleared by the FDA. Copyright © 2006, Aperio Technologies, Inc. All rights reserved. ScanScope® and ImageScope™ are trademarks of Aperio Technologies, Inc.
